LinkedIn Profile :- <https://www.linkedin.com/in/adnan-husain-nagori-1b8518116/>

Profile Summary:

Innovative and results-driven **Frontend Developer** with **4+ years** of experience in **frontend development** building **scalable, responsive, and user-focused web applications**. Specialized in **Angular (10–17), JavaScript (ES6+), TypeScript, HTML, CSS, and modern UI frameworks**, with a proven ability to deliver high-performance solutions that meet both user and business needs. **Hands-on experience with Angular versions 10–17, including modern features like standalone components and performance optimization techniques**. Strong expertise in **UI design, performance optimization, and cross-browser compatibility**.

Proficient in **component-driven architecture, API integration, and Agile workflows**, ensuring maintainable and efficient applications. Experienced in **translating designs (PSD/Figma) into dynamic, high-quality interfaces**. Experienced in leveraging **AI-powered development tools (such as Windsurf, Cursor and prompt based coding assistants)** to accelerate development, improve code quality, and enhance productivity.

In addition to frontend expertise, gained working knowledge of **backend technologies (PHP, WordPress, CodeIgniter)**, enabling effective collaboration with backend teams and end-to-end understanding of application development. Recognized as a collaborative team player who consistently delivers solutions that exceed expectations.

Technical Skills:

- | | |
|---|--|
| • Frameworks & Languages: | Angular (10–17), ReactJS, TypeScript, JavaScript (ES6+) |
| • Web Technologies: | HTML5, CSS3, SCSS, Bootstrap, Angular Material |
| • API & Integrations: | RESTful APIs, GraphQL, Payment Gateway Integration |
| • Backend Technologies: | Node.js, ExpressJS, PHP, CodeIgniter |
| • CMS & E-Commerce: | WordPress, WooCommerce |
| • Databases: | SQL Server, MySQL, PostgreSQL, MongoDB (Mongoose) |
| • Version Control: | Git, GitHub, Bitbucket |
| • Development & Collaboration: | Jira, Azure Portal, Cursor AI Editor, Windsurf AI Editor |

Core Expertise:

- Component-Based Architecture
 - Responsive Web Development
 - Cross-Browser Compatibility
 - REST API Integration
 - Performance Optimization
 - State Management
 - Debugging and Testing
 - Progressive Web Applications (PWA)
 - Agile/Scrum Methodologies
-

Work Experience:

Organization: Procreator Solutions | Associate Senior Developer

Technology: React, TypeScript, HTML, SCSS, Bootstrap, NodeJS, ExpressJS, PostgreSQL

Responsibilities:

- Contributed to a **SaaS-based railway monitoring platform** for real-time wheel and **axle** health diagnostics.
- Implemented responsive UI components and optimized performance for real-time data visualization dashboards.
- Leveraged **AI-powered tools (Windsurf AI Editor) and prompt-based development techniques** for **code generation, refactoring and performance optimization**, reducing development time and increasing efficiency.
- Integrated **RESTful APIs with Express.js and PostgreSQL** for reliable data handling and seamless frontend-backend connectivity.

Organization: Infosys Limited | Technology Analyst (Feb – 2022 to Feb 2025)

Technology: Angular V17, HTML, CSS, Bootstrap, CodeIgniter, PHP, SQL

Responsibilities:

- Developed an **Eisenhower Matrix task management portal** to categorize tasks by urgency and importance.
- Implemented **role-based access** for admins and users, enabling task creation, assignment, and prioritization.
- Built a **responsive, interactive UI** with seamless frontend–backend integration via PHP/CodeIgniter APIs.
- Optimized performance by resolving bugs, enhancing database queries, and delivering planned feature updates.

Organization: Destar Inc. | Software Developer (Sep – 2021 to Jan 2022)

Technology: Angular V12, TypeScript, HTML, CSS, Bootstrap, Angular Material.

Responsibilities:

- Application Update from Angular 2 to Angular 12
- Develop Reusable Modules using HTML, CSS, BOOTSTRAP, Angular Material.
- Integrated APIs to fetch and process data at the user end.
- Addressed design issues in various modules.

Organization: Appligent Technologies | Senior Web Developer (Mar – 2020 to Aug 2021)

Technology: Angular, TypeScript, HTML, CSS, Bootstrap, NodeJS.

Responsibilities:

- Developed a web application enabling users to book taxis online by providing minimal details.
- Created responsive dashboard, and registration and login processes for drivers and users via mobile numbers.

Organization: Eway IT Solutions | Web Developer (Jan – 2019 to Feb 2020)

Responsibilities:

- Enhanced website speed and customized plugins and themes.
- Developed WooCommerce websites and integrated various payment gateways.

Academics:

- **Master of Computer Application** (2011-14) from IPS Academy, Indore (RGPV) 6.93 CGPA.
 - **Bachelor of Computer Application** from Future Vision Collage Ujjain.
-
